We return the Filing Receipt with respect to the above-identified United States patent application and request that it be corrected as follows:

Please include the priority information on the Filing Receipt. The priority information was indicated both in our covering letter of July 6, 2001, accompanying the filing of the application, and also on the Application Data Sheet submitted with same. Priority in this matter was claimed on United States Application No. 09/742,310, filed December 22, 2000.

We look forward to receiving a corrected Filing Receipt in due course.

Our letter to the Office dated October 1, 2001 requested that the filing receipt be corrected to include the priority information.

We are now in receipt of the *Response to Request for Corrected Filing Receipt*, mailed October 26, 2001, indicating that continuity claimed under 35 USC 120 cannot be added to the Filing Receipt without supplying the relationship (i.e. continuation, divisional ...). Please be advised that we entered no claim under 35 USC 120. Our claim to priority was entered under 35 USC 119, and we again request that the filing receipt be corrected to include the missing information.

We look forward to receipt of the corrected filing receipt in due course.

Yours truly

**RECEIVED**  
**RESPONSE TO REQUEST FOR CORRECTED FILING RECEIPT**  
**Claims, Fees, Inventors and Continuity**  
**NOV 24 2003**  
**Technology Center 2100**

In response to your request for a corrected Filing Receipt, the Office is unable to comply with your request because:

- The total number of claims appearing on the Filing Receipt does not include multiple dependent claims. The total fee appearing on the Filing Receipt includes the cost of multiple dependent claims that were present at the time the application was filed.
- The filing fee is correct. It includes the surcharge under 37 CFR 1.16(e) for filing an oath/declaration or basic filing fee after the application filing date.
- The inventor information may be truncated if the family name consists of more than 50 characters (letters and spaces combined) and if the given name consists of more than 50 characters (letters and spaces combined). The inventor's residence allows for up to 40 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- Continuity claimed under 35 USC 120 cannot be added to the Filing Receipt without supplying the relationship (i.e. continuation, divisional...).
- Foreign priority will appear on the Filing Receipt in the following order:  
**Country, Application number, Filing date.**
- The person signing on behalf of the deceased inventor will be reflected on your Filing Receipt as the legal representative.
- Only one character per space is allowed. Therefore, punctuation which is usually placed above or below a letter, such as an umlaut (..), cannot be included on the Filing Receipt.

Any corrections that may need to be done to your Filing Receipt should be directed to:
